

Saperavi

Dr. Konstantin Frank
Saperavi
2014

New York's most award-winning winery since 1962

Winery Background

Dr. Konstantin Frank ignited the "Vinifera Revolution", a movement that forever changed the course of wine growing in the Finger Lakes and the United States. Dr. Frank's vision, knowledge and determination are credited with elevating the New York wine industry from a state of happy mediocrity to a level that today commands world attention. Located on Keuka lake in the Finger Lakes region, Dr. Konstantin Frank Wines features some of the oldest vinifera vines in the United States and continues to produce wines of distinction and quality.

About the Variety

The Saperavi grape is an ancient grape variety with origins in eastern Europe. Saperavi is one of the few red grapes that has colored flesh apart from very dark skins, producing deeply colored wine. That is why its name means "dye" in Russian. Saperavi is a wonderful wine for ageing due to its naturally high acidity levels.

Vinification

The juice was cold-soaked prior to ferment for color and flavor extraction. It was partially fermented with wild yeast, matured in French oak and bottled without fining to add complexity.

The Wine

Description: Expressive style with dominant characters of espresso, raspberry, leather with a slightly smoky finish. Its firm acid structure, soft tannins and medium body make it a very versatile style for food pairing.

	Dry with velvety tannins.
Style:	Medium bodied
Body:	Warmer year making the fruit characters stand out.
Vintage Influence:	15 months in French oak
Maturation:	Drink now or cellar until 2021
Cellaring:	Prime rib, veal, mesquite steak, Shepherd's Pie
Food Pairing:	
Analysis:	Alcohol: 13%, Acidity: 0.62 g/100mL, pH: 3.65, Sugar: <0.1%
