Dr. Konstantin Frank Dry Rosé

New York's most award-winning winery since 1962

Winery Background

Dr. Konstantin Frank ignited the “Vinifera Revolution”, a movement that forever changed the course of wine growing in the Finger Lakes and the United States. Dr. Frank’s vision, knowledge and determination are credited with elevating the New York wine industry from a state of happy mediocrity to a level that today commands world attention. Located on Keuka lake in the Finger Lakes region, Dr. Konstantin Frank Wines features some of the oldest vinifera vines in the United States and continues to produce wines of distinction and quality.

Vinification

The grapes were picked in the early morning to retain freshness and left on skins for a few hours after crushing to extract color, aroma and flavours. The juices were fermented separately in stainless steel tanks at low temperatures to enhance the complexity.

The Wine
