## 2019 SEMI -DRY RIESLING

*“Not quite as aggressive as the Dry Riesling, this nonetheless shows off its nice acidity early and often. **Focused, precise and pure, it has fine balance.** At this price level, this (like its sibling) is a **no-brainer purchase.** The Dry Riesling has a lot more energy, while this is predictably lusher. Reasonable minds and personal preferences might differ as to which is better. I’d give the nod to the Dry Riesling just now, but it might depend on my mood and how I would use it.”*
