Dr. Frank's Featured Among "America's 500 Best Wineries of 2017" January 2017

Dr. Konstantin Frank Winery was included among the best wineries of 2017 in Food & Wine Magazine's 2017 Wine Guide. The guide discusses the historical contributions of Dr. Konstantin Frank and notes, "His son Willy, and Willy's son Frederick, in turn have proved him right, famously producing some of America's most distinctively vibrant Rieslings, but also lovely sparkling wines and, more recently, fine, juicy reds."

The Food & Wine 2017 Wine Guide also pinpointed the Dr. Frank Rkatsiteli and Riesling Reserve (currently sold out) as the winery's best wines:

"Dr. Konstantin Frank Rkatsiteli / Finger Lakes / \$ Dr. Frank may be the only US winery making varietal wine from this unpronounceable Georgian grape, but they do it very well. This graceful white recalls fresh herbs and peaches.

Dr. Konstantin Frank Reserve Riesling / Finger Lakes / \$\$ One of the classic wines of the Finger Lakes region, this reserve Riesling is a pleasure when young but has a surprising potential for long-term aging as well."
